

Frequently Asked Questions

What does Wild Apricot offer?

Wild Apricot's web-based software can easily let you create and manage your own website as well as your membership database and event registration. Plans start as low as \$25 per month and are based on your contact database size. (Although the discount is only available to annual subscribers.)

What if I already have a website but need a membership management or event registration tool?

Wild Apricot can be used as your main website but it can also be used with your existing website in order to set up specific functions and embed them into your existing website using WA widgets. You can also use it as a secondary website for event registration or as an online member self-service portal.

What if I already have a Wild Apricot account?

Current Wild Apricot subscribers can redeem the discount upon their renewal.
